### EDUCATION

- 2005            B.Sc & M.Sc, Kyoto University, Japan  
                  Thesis advisor: Prof. Isao Saito and Prof. Kazuhiko Nakatani  
                  Thesis title: Engineering and application of small molecules binding to mismatch base pair in DNA duplex
- 2008            Ph.D., The University of Tokyo, Japan  
                  Thesis advisor: Prof. Hiroaki Suga  
                  Thesis title: Ribosomal synthesis of the peptides containing unusual structures

### POSITIONS SINCE FINAL DEGREE

- 2008-2009      Postdoctoral research associate, University of Illinois at Urbana-Champaign  
                  Advisor: Prof. Wilfred A. van der Donk  
                  Project: Discovery and mechanistic studies of a novel class of lantibiotic synthetase
- 2009-2010      Assistant Professor, Research Center for Advanced Science and Technology, The University of Tokyo
- 2010-2016      Assistant Professor, Department of Chemistry, The University of Tokyo
- 2011-2015      Investigator, PRESTO research program, Japan Science and Technology Agency
- 2016-present   Associate Professor, Department of Chemistry, The University of Tokyo

### SELECTED HONORS AND AWARDS

- 2013            Young Scientists Prize, Minister of Education, Culture, Sports, Science and Technology
- 2016            Young Investigator Award, Japanese Peptide Society
- 2017            The Chemical Society of Japan Award for Distinguished Young Chemists
- 2017            The 1<sup>st</sup> Bioindustry Award for Young Investigators
